

Guidelines for safe contact with MRSA

This guidance was received from Dr Brendan O'Brien - Public Health Protection Team - on Thursday 27 October 2011 [Tel: 0300 555 0114]

- Wash hands before contact during intimate care procedures
- Wash hands following contact during intimate care procedures
- Wash surfaces with which pupil has been in contact with detergent and water
- Wash pillow cases, cushion covers etc as normal
- Uniforms/clothing worn in school should be removed and washed at the end of the school day, especially if in contact with other vulnerable children or adults

Within Sperrinview it is further suggested that staff should wear gloves and aprons during intimate care procedures
